Air cleaning systems

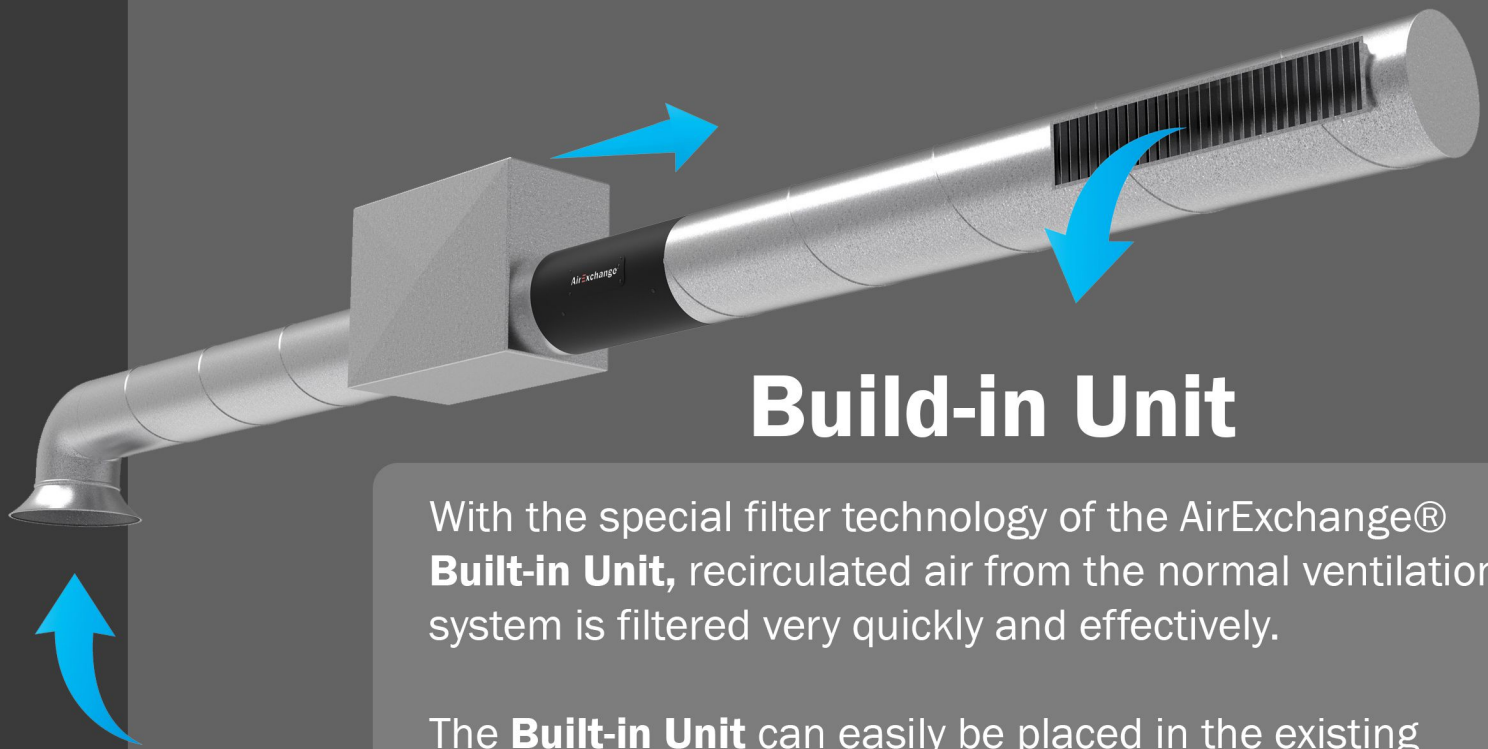

**Catalogue Built-In and
Suction systems 2021**

The AirExchange® built-in and suction systems are the integrated solution when it comes to creating a virus-free and clean work environment.

By using our proven filter technology, including an antibacterial HEPA H13 filter, Carbon filter with activated carbon, Titanium Dioxide (TiO₂) filter and UV-C technology, it is possible to clean rooms at lightning speed. This without making major adjustments to your existing ventilation system.

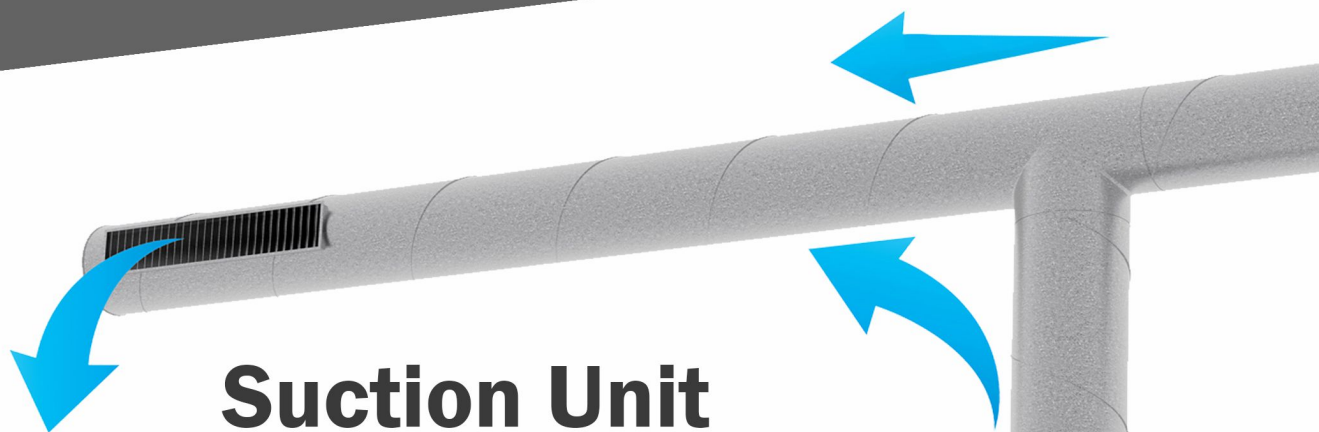

We work together with certified HVAC installers, who install the built-in or suction unit in an instant. This makes your existing ventilation system completely up-to-date.

Build-in Unit

With the special filter technology of the AirExchange® **Built-in Unit**, recirculated air from the normal ventilation system is filtered very quickly and effectively.

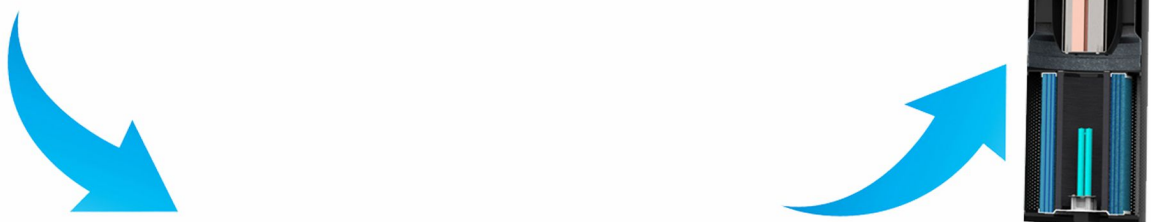

The **Built-in Unit** can easily be placed in the existing ventilation system.

Suction Unit

With the AirExchange® **suction unit**, a natural circulation is started. By letting in a combination of clean and fresh air from above and extracting the polluted air from below, a maximum cleaning effect is achieved.

This allows you to save on energy costs, without sacrificing air-freshening capacity.

AE-315 Built-In Unit

Dimensions: 318mm ø x 575mm
Weight: 9.5kg
Filtertechnique: Antibacterial pre-filter, HEPA H13 filter, Carbon filter with activated carbon, TiO2 ionistor, 254nm UV-C lamp

Effective purification capacity: 2500m3/uur
CADR: 750m3/uur
Voltage: 220-230 V
Power: 40W
Maintenance period filter set: every 12 months

Producttype	Articlenumber	EAN	Unitprice	Delivery time
Air Filtersystem	AE-315-inbouw	7422223932945	€1595,- excl. VAT	On request

AE-315 Suction Unit

Dimensions: 318mm ø x 480mm
Weight: 7.8kg
Filtertechnique: Antibacterial pre-filter, HEPA H13 filter, Carbon filter with activated carbon, TiO2 ionistor, 254nm UV-C lamp

Effective purification capacity: 2500m3/uur
CADR: 750m3/uur
Voltage: 220-230 V
Power: 40W
Maintenance period filter set: every 12 months

Producttype	Articlenumber	EAN	Unitprice	Delivery time
Air Filtersystem	AE-315-aanzuig	7422223932952	€1495,- excl. VAT	On request

AE-315 Motorunit

Dimensions: 318mm ø x 408mm
Weight: 10.5kg
Voltage: 220-230 V
Settings: Combination with settings-controller possible.

Effective air displacement: 2350m3/uur
Power: 270W
Maximum speed: 2800 rpm
Static pressure: 339 Pa
Ampere: 1.6

Producttype	Articlenumber	EAN	Unitprice	Delivery time
Air Fan	AE-315-motor	7422223932938	€595,- excl. VAT	On request

Coupling piece with sealing rubber 315mm ø

Dimensions: 315mm ø x 110mm
Weight: 0.8kg

Closure: NBR sealing rubber (both sides)
Multiple connectors / dimensions in stock

Producttype	Articlenumber	EAN	Unitprice	Delivery time
Couplings	Koppel-315	7422223932955	€14,95 excl. VAT	1-2 working days

Reducer with sealing rubber 315> 250mm ø

Dimensions: 315-250mm ø x 125mm
Weight: 1.1kg

Closure: NBR sealing rubber (both sides)
Multiple Reducers / dimensions in stock

Producttype	Articlenumber	EAN	Unitprice	Levertijd
Reducers	Verloop-315250	7422223932956	€24,95 excl. VAT	1-2 working days

Reducer round 250mm ø to rectangular 400mm

Dimensions: 250mm ø x 400 x 400mm

Weight: 3.0kg

Material: Galvanized steel

Multiple Connectors / dimensions in stock

Producttype	Articlenumber	EAN	Unitprice	Delivery Time
Connectors	Verloop-350400	7422223932957	€99,95 excl. VAT	2-5 working days

Suspension bracket with rubber insert 315mm ø

Dimensions: 315mm ø

Weight: 0.3kg

Connection: M8 and M10 thread

Multiple Brackets / dimensions in stock

Producttype	Articlenumber	EAN	Unitprice	Delivery Time
Brackets	Beugel-315	7422223932958	€8,95 excl. VAT	1-2 working days

Base plate with M8 threaded end (20mm, 30mm, 50mm)

Dimensions: 80mm x 30mm

Weight: 0.1kg

Connection: M8 thread

Multiple Base Plates / dimensions in stock

Producttype	Articlenumber	EAN	Unitprice	Delivery Time
Base Plates	Grondplaat-M8	7422223932959	€5,95 excl. VAT	1-2 working days

Spirotube 315mm ø x 1.5m

Dimensions: 315mm ø x 1.5m

Weight: 3.5kg

Material: Galvanized Steel

Multiple Spirotubes / dimensions in stock

Producttype	Articlenumber	EAN	Unitprice	Delivery Time
Spirotubes	Spiro-315-1.5	7422223932960	€44,95 excl. VAT	1-2 working days

Sealing lid with sealing rubber 315mm ø

Dimensions: 315mm ø x 50mm

Weight: 0.3kg

Closing: NBR sealing rubber

Multiple sealing lids / dimensions in stock

Producttype	Articlenumber	EAN	Unitprice	Delivery Time
Sealing covers	Deksel-315	7422223932961	€12,95 excl. VAT	1-2 working days

5-speed speed controller

Dimensions: 100mm ø x 60 x 40mm

Ampere: Maximum 3.0Amp

Application: Suitable for AE-315 Motor unit

Multiple speed controllers in stock

Producttype	Articlenumber	EAN	Unitprice	Delivery Time
Speed controllers	Regelaar-315-5	7422223932962	€199,95 excl. VAT	1-2 working days
